# What is ISO 13406-2 ?

• **Pixel defect classification as transparent information**
• **The manufacturer must publish pixel defect class**
• **User can claim warranty repair/exchange in case of exceeding defects**

Definition of Fault Classes
Maximum number of faults per type per *million* pixels

Class	Type 1 stuck high state	Type 2 stuck low state	Type 3 stuck subpixel or intermittent	Cluster with 1 type 1 or 2	Cluster of type 3 faults
I	0	0	0	0	0
II	2	2	5	0	2
III	5	15	50	0	5
IV	50	150	500	5	50

Per million pixel means: no difference between pixel and subpixel
